

2019 Young Scientist Seminars Competition Application

Welcome to the 2019 Young Scientist Seminars (YSS) Competition Application!

Please make sure you read the competition details carefully before you begin. You can find all relevant information on the [YSS webpage](#).

1. Enter your last name(s).

2. Enter your first name.

3. Enter a primary email where we can reach you.

4. Are you a pre-doctoral graduate student or a postdoctoral fellow in any field of biological sciences?

- Yes
- No (Only pre-doctoral students and postdoctoral fellows in any field of biological sciences are eligible to apply. If you qualify according to these guidelines please go back to correct your answers. If you don't qualify based on these guidelines, we thank you for your interest in applying for iBiology's 2018 Young Scientist Series, and we invite you to stay tuned to iBiology for other opportunities.)

5. How did you hear about the 2018 YSS Competition?

- iBiology newsletter (1)
- I was told by a friend or colleague (2)
- Email from a friend or colleague (3)
- Facebook (4)

- Twitter (5)
- Talked to iBiology staff at a seminar or conference (6)
- Other (7) _____

6. Current academic institution

7. Current city and country

8. If the research you are presenting in this application was done in an academic institution different than your current one, please let us know that institution's name, city and country.

9. Please tell us why you are applying to this competition and how you would benefit from participating in it (3000 characters maximum, including spaces).

10. Please upload a 2-page resume or CV. PDF format only.

11. Please describe the scientific discovery you would like to share on camera and why it is novel and important. You should write this for a non-expert but scientific audience (e.g. an undergraduate student in the biological sciences who has had some coursework, but is not an expert in your field) (3000 characters maximum, including spaces).

12. Please indicate the name of the faculty member that will be writing your letter of recommendation. Remember that your application will not be complete until we receive this letter of recommendation.

Letters of recommendation should be sent in PDF format to yss@ibiology.org with “[APPLICANT LAST NAME, FIRST INITIAL]” in the subject line.

13. Please indicate the email of the faculty member that will be writing your letter of recommendation.
